FILTERRODS INDUSTRY

Message from The President Director

Alex Faisol T. Wartono

As the President Director of BMS it is with great pride that I extend a warm welcome to you at our company. Since our inception 27 years ago, BMS has been driven by a singular mission: to be the unrivalled leader in high-precision filter rod manufacturing. Over the past nearly three decades, we have evolved from an ambitious manufacturing unit into an industry benchmark, trusted by partners worldwide for reliability and excellence.

Our longevity is built on an uncompromising foundation of quality. We believe that to produce the best quality products, one must utilize the best tools. Our manufacturing facility is outfitted with **state-of-the-art** machinery that leverages the latest advancements in technology. This investment ensures unparalleled precision, consistency, and efficiency in every batch we produce.

However, technology alone is not enough. The heart of BMS lies in our dedicated team of experts who combine technical expertise with a relentless passion for innovation. We are not just building businesses; we are crafting legacies. Our motto, '**By leveraging local talent, we serve the world.**' reflects our unwavering belief in the potential of our people and the quality of our services.

We are committed not just to meeting industry standards, but to setting new ones.

As we look toward the future, we remain steadfast in our commitment to excellence, integrity, and client satisfaction. We invite you to partner with us as we continue to shape the future of filter rod manufacturing.

Historical Background

Historical Background of PT Buana Mahayasa Sakti

Since 1999, the cigarette industry has consistently relied on the demand for filter rods.

The Evolutionary Journey of Buana Mahayasa Sakti (BMS)

Established in 1999, Buana Mahayasa Sakti (BMS) started a significant journey in the filter rods sector, expanding beyond local and national boundaries to make a mark internationally.

Genesis: A Modest Beginning

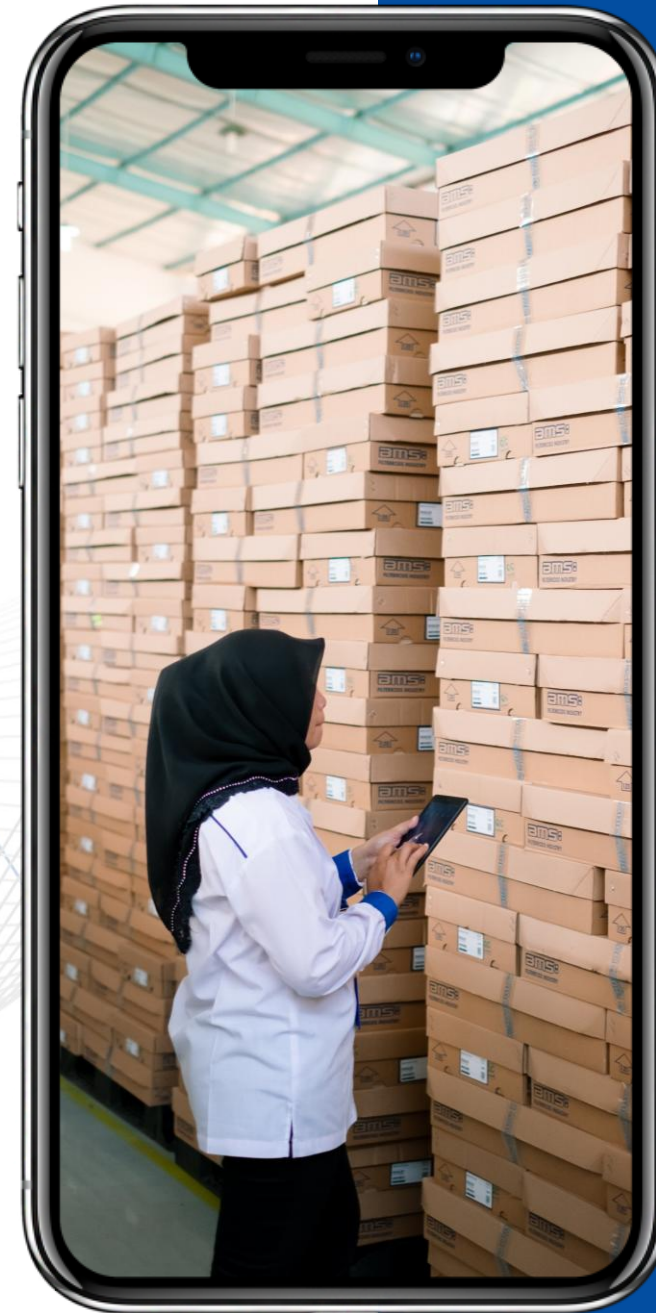

In its beginning, BMS started with a single unit and seven employees. The company focused on innovation, excellence, and producing quality filter rods.

A Promising Start From Millions to Millions

BMS placed a strong emphasis on quality and precision during its early stages, producing 1-2 million filter rods. Through its commitment to craftsmanship, the company saw significant success with the sale of 80-90 million filter rods per month in less than a year, demonstrating its potential. By 2024, BMS reached the impressive milestone of 500 million filter rods sold per month.

Unleashing Potential: Reaching New Heights

BMS's rise continued beyond local acclaim due to excellence and innovative production, becoming a major player in filter rods, providing top-notch products to a growing clientele.

Global Footprints: A Legacy of Distribution

Today, Buana Mahayasa Sakti is a successful player in filter rods, distributing over 5.4 billion filter rods annually to domestic and global markets. BMS prioritizes product and process improvements to exceed customer expectations.

Pioneering Innovation: A Modern Lab for a Modern Era

At the core of BMS's journey is a strong dedication to continuous improvement. The company's industry dominance is fueled by its commitment to excellence through R&D. BMS's modern lab showcases its focus on advancing production tech for high-quality filter rods.

Buana Mahayasa Sakti's history reflects vision, determination, and pursuit of excellence. Starting in 1999, BMS has evolved into a global leader, inspiring those aiming to make a lasting impact in their field.

What Makes us Different?

Vision

- Being an internationally standardized filter rods company, prioritizing quality and customer service

Mission

- Providing high-quality filter rods products with premium raw materials and state-of-the-art technology,
- Enhancing the company's value through creativity, innovation, and efficient human resource development.

Our Values

- Producing high-quality products in accordance with established quality standards and specifications.
- Enhancing quality development through consistent and continuous product testing, as well as providing quality assurance to all customers
- Serving and committing to meet ISO 9001:2008 requirements and customer satisfaction.
- Conducting all quality supervision procedures according to company-established standards and quality management systems.
- Empowering human resources through increased professionalism and building competitiveness through innovation and process efficiency, optimally applying ISO 9001:2008 quality management system.
- Continuously improving the company's performance to become better year after year.

BMS's Superiority

Unrivaed Superiority: Elevating Quality and Expedience

Buana Mahayasa Sakti (BMS) excels in filter rods, focusing on high-quality products and efficient service.

Pinnacle of Quality: Craftsmanship Beyond Compare

At the core of BMS, each filter rods reflect precise craftsmanship and strict quality standards. By blending traditional artistry with modern technology, we guarantee precision, consistency, and exceptional taste. Our dedication to quality has won the trust of clients and consumers who demand perfection.

Efficiency Redefined: Swift and Seamless Service

BMS prioritizes providing service aligned with this pace. Our dedication to swift service is fundamental, evident in our streamlined processes from order to delivery. We value time, striving to promptly meet clients' needs, nurturing trustworthy relationships.

Holistic Approach: Harmonizing Quality and Speed

Our excellence is in the balance of quality and speed. We believe in high-quality products with seamless service. This approach is in every operation, showing our commitment to excellence.

A Promise Fulfilled. Elevating Expectations

As a leader in filter rods at BMS, we've elevated the notion of superiority, delivering top quality products and fast service. Our commitment is a core part of our identity. With each BMS filter rod and interaction, we set new standards, redefine excellence, and fulfill trust from clients and partners.

Dual Segment Filter Hollow Capsule

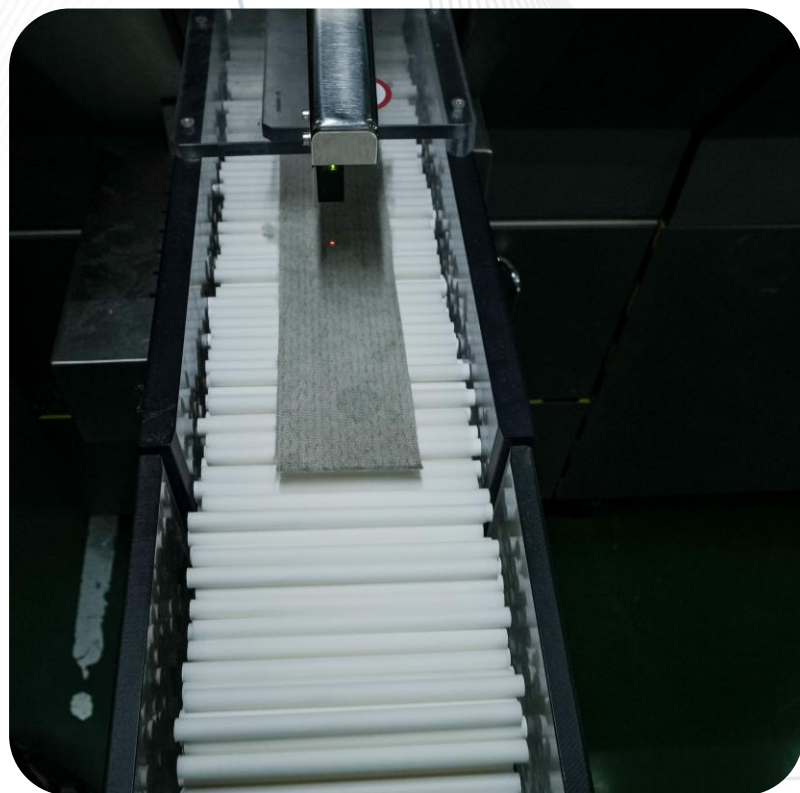

Often designed for cigarettes, these filters complement a hollow tube with a crushable capsule to filter smoke while allowing smokers to release a concentrated, minty, or fruity taste upon demand. These filters enhance flavor profiles and reduce bitterness using specialized materials

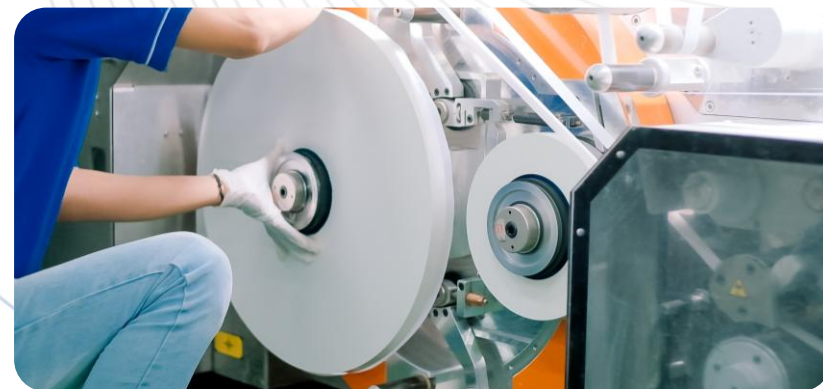

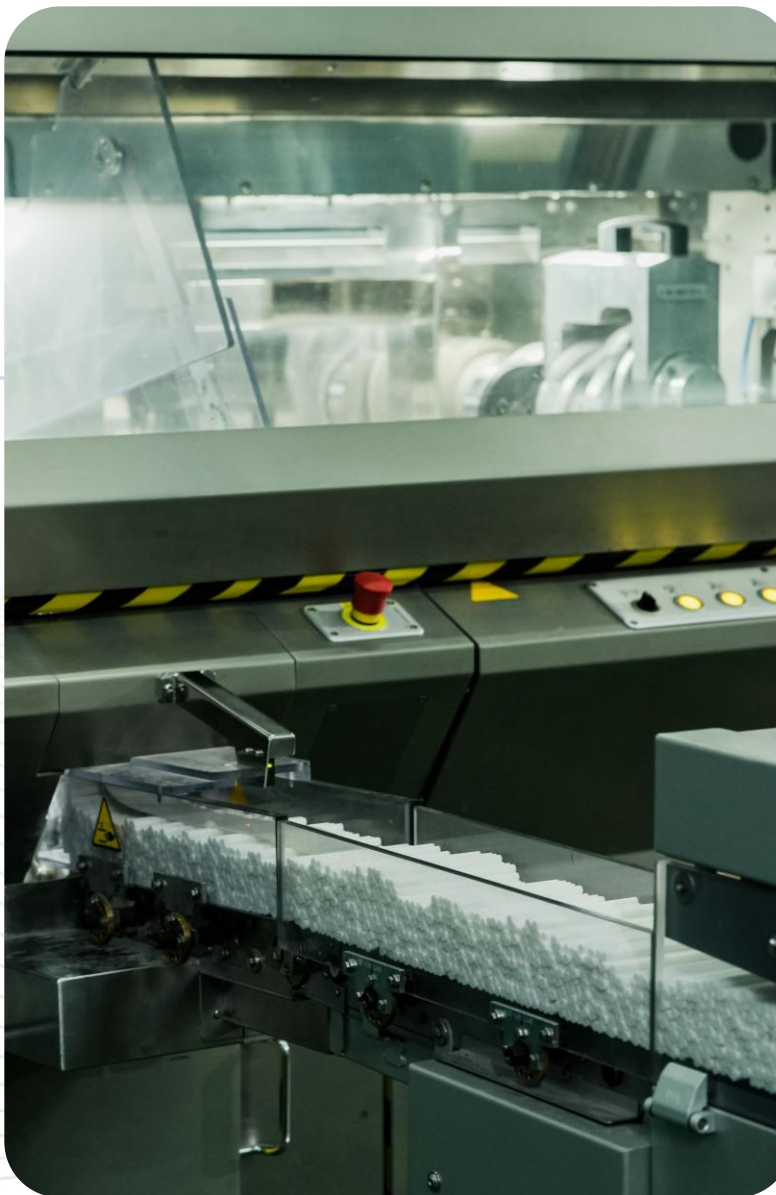

Length	120 mm
Diameter	7.70 – 7.80 mm
Pressure Drop	By Request

Our Production Facility

BMS labs combine innovation & tradition, showing our commitment to excellent products. We use cutting-edge technology like Quantum Neo, Sodimax, & Borgwaldt. Emphasizing product excellence & consumer satisfaction is our focus.

With more than 25 years of experience, we're ready to grow our services worldwide. By serving local and national markets, we know what it takes to step into the larger global market.

In 2019, we excelled in exports, showcasing BMS's commitment to excellence. We serve local, national, and international markets, ready for global expansion with top-notch service.

Since we started, pursuing excellence has led to continuous improvement in production tech and processes. In 25 years, our dedication to progress has resulted in significant outcomes. In 2022, we hit a milestone by making 5.4 billion filter rods. These accomplishments show our commitment and capability to increase production with top-notch quality.

Our family-oriented business is dedicated to leveraging local talent to serve the world. Our motto reflects our core values, vision, and mission as we strive for excellence in all aspects of our operations. From our humble beginnings to reaching significant milestones like the BMS Filterrods technology, we are committed to unleashing potential and maintaining superiority in quality and expedience. With a promising start and a holistic approach, we are serving the international market with evolving excellence.

THANK YOU
